Science Fair

The students who participated in the Science Fair this year are eager to share their projects with our community on Feb 21st between 12-2:30 pm. These projects promote hands-on scientific exploration, spark interest in STEM, recognize young scientific talent, foster critical thinking, build confidence through presentations, and encourage teamwork. A great opportunity for community engagement!

BTPS Stakeholders

BTPS has invited parents/guardians, students, staff, school council, and community members to attend one of the meetings.

Having input from all all of these stakeholders helps in getting a complete understanding of how BTPS is meeting needs and what direction our Education Plan should take. See page 4 for more information.

Dear BTPS Stakeholders,

Buffalo Trail Public Schools is committed to maximizing student learning, in a safe and caring environment, supported by a highly effective team.

As part of that commitment, BTPS continues reaching out to educational stakeholders assuring the educational program, sharing results, and seeking input on direction. Parents/guardians, students, staff, school council, and community members all have unique experiences, and we need representation from all these stakeholders to get a complete understanding of how BTPS is meeting needs.

The 2023-2027 Education Plan highlights three priorities:

1. Supporting Learning Success for All Students

3. Building Strong Collaborations

The purpose of this engagement is to:

- Share with stakeholders the highlights of the Annual Education Results
- Check-in on direction around strengths and challenges moving forward
- Identify areas of focus for 2024-2025

Educational stakeholders are invited and encouraged to attend a meeting that best fits their schedule.
